WEDNESDAY, OCTOBER 5, 1887
SIX-PAGE EDITION.

THE Inter-State Commerce Commission has struck a snag. It has bravely confronted and solved the most intricate railroad problems, but the bustle has outwitted the members.

Prior to last July bustles were shipped as "wire goods" or "hoop-skirts" at \$1.50 per hundred from New York to San Francisco, whereas the freight on unclassified dry goods was \$3. One luckless firm billed them as "bustles," to the great confusion of the agent, who searched his tariff catalogue in vain for goods of this description. The general traffic managers next wrestled with the problem. One old gentleman, who had been married for years, denounced the classification as "wire goods," claiming that there wasn't a bit of wire used in them. He insisted that he knew all about them for his wife had worn them for years. They were made of feathers and cloth. A younger traffic manager arose and averred they were made of newspapers. Still another said that a well-constructed bustle was filled with curled hair and a still better quality with wool.

In sheer despair the traffic managers referred the matter to the shippers, who reported that the "bustle" of commerce was composed of wire and hoops and erinoline. In former years they had been built of cotton and excelsior and hair and wool and feather and other things, but never, he thought, of newspapers.

The managers would have adopted this view and allowed bustles to be shipped as "wire goods," but the freight agents held out for a compromise and the tariff commissioner finally fixed the rate at \$2 per hundred. Still, as the problem is involved in uncertainty, we suggest that it be referred to a committee of ladies, who ought to be the best judges.

In this issue is an article on our public schools. The aristocrat may ignore the teacher, but cannot ignore his work; the politician may consider the instructor of children not his equal in political conventions, but he does not before a public audience so much as whisper aught against the work done by the teacher. The masses may not understand the methods of mind training, but they do know it should be trained and know when it is well trained. There is no American institution comparable to that of our public schools; in the services rendered to this Republic no institution so widespread and in which so many people are interested. There are within the United States about 9,000,000 of children attending the public schools, and more than 300,000 teachers in the service of the teaching profession. The number of teachers is equal to about one-third of all the men, women and children of California, and sixty times the whole population of Nevada. In no other place is the public school system more in favor than in Nevada, and in no other place in Nevada more than in Reno.

OHIO has many disgusted Democrats. When it was learned that President Cleveland would pass through Columbus Monday evening the citizens of that place made great preparations to receive him. Several bands were engaged, and a torchlight procession was arranged for. Telegrams were sent to Colonel Lamont at Pittsburgh apprising him of the arrangements, and asking that the President change his plans so as to show himself to the faithful who would greet him upon his arrival. The dispatch was answered by Lamont at Steubenville about 2 o'clock, telling the Democratic committee that no reception was desired at Columbus, and that the President would be in bed asleep when that city was reached. This wet blanket on the hopes of the Democracy. The action of the President in snubbing the people of the great State of Ohio by sneaking through it in the dead hour of night is vigorously condemned by everyone, regardless of party. The Democrats think it rather small business on the part of the President, even if Foraker did checkmate him on the flag episode.

—The Commissioner of Education wants twenty-three more public schools established in Alaska.
—Only one delegate was on hand yesterday for the Convention of the National Reform party, announced to be held at Syracuse, N. Y.

NEWS OF THE DAY.

(FROM DISPATCHES TO THE GAZETTE.)
An Almost Forgotten Ship Race.
NEW YORK, Oct. 4.—On May 13th two ships, the Seminole, loaded by Stutton & Co., and the Charmer, loaded by Van Vleck & Co., left this port bound round the Horn for San Francisco. Both were clipper-built ships and exceedingly fast, and there was at least a tacit understanding between their captains and crews that each ship should do its best to reach San Francisco ahead of the other. Two days later the ship George Curtis left Philadelphia for San Francisco, and as her time of sailing was about long enough after that of the Seminole and the Charmer to compensate for the shorter distance she would have to cover, it was announced that she would do her best to beat both the New York vessels into port. The time for their arrival at San Francisco is about up, but at the office of Stutton & Co. it was said yesterday that nothing as yet had been heard of either of the ships. Neither vessel could have made very fast time. In fact, the voyage must have been rather longer than usual. The Seminole was spoken on July 15th, in 29° south, 45° west, off the coast of Uruguay.

Shooting Public Guardians.
PHILADELPHIA, Oct. 4.—Three murderous attacks have been made on Philadelphia policemen within one week. Yesterday morning Policeman Johnson was fatally shot as he questioned a suspicious character whom he suspected of being a burglar. A few minutes later another policeman was fired at by a man running through the street. A few nights ago another watchman of the night, while patrolling the halls and corridors of a large hotel, was shot down by a thief. These closely succeeding crimes have occasioned considerable excitement. The Ledger says: There must be reason for this outbreak of shooting watchmen and killing policemen in the quiet and proper performance of their duty. Whatever that reason may be, just at the present moment in Philadelphia there can be no difficulty in tracing it back to the law's delay in dealing with the perpetrators of such crimes and the well known immunity afforded but for shielded the brutal assassins who murdered eight Chicago policemen nearly two years ago.

Crooked Officials.
SACRAMENTO, Oct. 5.—Although notified to appear before the Board of Trustees this morning to explain the charges of embezzling city funds, Acting Chief Sullivan, of the Fire Department, did not put in appearance to-day. Mayor Gregory handed to the City Attorney two affidavits accusing Sullivan and ex-Fire Commissioner Jackson of buying a horse for the city for \$200 and charging the city \$250 therefor; also accusing Sullivan of selling one horse for \$90, when the records are said to show that he turned into the city treasury only \$50. City Attorney Hart will cause an investigation to be made by the Fire Commissioners.

A Successful Jail Break.
CHICAGO, Oct. 5.—Four criminals escaped from the Laramie county jail at 8 o'clock this evening by cutting a hole in the top of the iron cage and crawling through the ventilator of the roof. They are David Bogan, alias Wm. McCoy, under sentence to be hanged; James Jones, a professional burglar and two horse thieves, Chas. H. Leroy and Wm. C. Steary. One thousand dollars reward is offered for McCoy, dead or alive, \$500 for Jones, dead or alive, and \$250 for each of the horse thieves. Great excitement prevails here and there will be a hanging bee on short notice if McCoy is captured.

History Repeats Itself.
ITHACA, N. Y., Oct. 4.—President Adams, of Cornell University, in lecturing upon Roman history before his class, showed how history is repeating itself in the theories of Henry George to-day. He characterized the Gracchi movement during the Roman Republic as similar to George's. "The only difference," he said, "is that they introduced into the Roman Government a proposition to take away from land-owners all that they held over and above a certain amount. George has not proposed this, but it is a legitimate conclusion from his doctrine."

An Important Tunnel Project.
NEVADA CITY, Cal., Oct. 4.—A survey of the Gold Bank tunnel began to-day. The proposed tunnel will be several miles long, and will tap most of the principal mines in this district, as well as some in Grass Valley district. It is an important enterprise, and if carried forward will prove of inestimable value to the mining interests here.

Sentenced to Imprisonment.
BERLIN, Oct. 5.—Herr Barth, editor of the Reichsfreund, has been sentenced to three months' imprisonment for ascribing growths of members of Parliament to "Bismarck's false and insulting accusation against the Liberals, which the latter were so accustomed to hear that they were no longer excited thereby."

Two Actors Dead.
NEW YORK, Oct. 4.—Mrs. Emma Skerrett, for 43 years a well-known actress, died Monday night at the Peabody House, Philadelphia. Mrs. Skerrett was English by birth, and was 61 years old. Harry Linden, an actor, died yesterday at 27 West Fourth street from the effects of an injury to the base of the skull, the result of a fall on Friday last.

The Board of Missions.
SPRINGFIELD, Oct. 5.—At the second day of meeting of the American Board of Foreign Missions every inch of space in the city was crowded. The announcement was made of the death of ex-Governor Washburn, which had occurred in the ante-room very suddenly, of apoplexy, during the reading of the report.

A Royal Commission.
LONDON, Oct. 5.—The Government has appointed a commission, headed by the Prince of Wales, Lord Roseberry and Lord Hartington, to promote English and Colonial exhibits at the Melbourne exposition.

Gov. Washburn Dead.
SPRINGFIELD, Mass., Oct. 5.—Ex-Governor Wm. B. Washburn, of Greenfield, dropped dead at the morning session of the Board of Foreign Missions to-day.

The President in Chicago.
CHICAGO, Oct. 5.—The train bearing President Cleveland and wife pulled

slowly into the Alton depot this morning. There was a loud shout from the crowd and three cheers as the distinguished pair walked across the platform to their carriage. A moment later the carriage door swung with a slam, and four spirited horses, at the whip circled over their heads, started off, and the President was riding through the streets of Chicago. There must have been 50,000 men, women and children gathered within a few blocks of the station. Above the heads of the crowd could be seen the helmeted military. They were truly a fine set of men. In all there were four companies of cavalry and artillery. Their arrival created a sensation which grew more and more tumultuous as the presidential equipage appeared on the scene. As the President's carriage moved away the military formed around it, and the crowd with wild cheering, fell in behind. The President took off his hat as soon as he got into the carriage and bowed and smiled at the cheering crowd went up.

Michael Davitt.
MINNEAPOLIS, Oct. 5.—Michael Davitt, the Irish agitator, arrived here last night. He is making a trip for his health and will remain here. This morning he addressed the National Assembly of the Knights of Labor with reference to the condition of affairs in Ireland.

In a State of Siege.
BERLIN, Oct. 5.—A decree has been issued under the Socialistic law, declaring a minor state of siege here, and prohibiting the sale on the streets of special editions of newspapers.

A FIREMAN'S WOE.
The Blighted Hopes of a Would-be Railroad.

He came into the Palace Restaurant about 12 o'clock at night and dropped himself into an eating attitude with a sort of "all is vanity and vexation of spirit" expression on his youthful brow, and thus addressed mine host Lemery: "Give me any old rusty corn beef and cabbage you've got laying round. I want a change. I've been railroad-ing and want a change of diet. I want to slide down in the direction of posterity, as an example of disappointed ambition. Boys, the cursed railroads have a corner on crushing ambitious young men. Look at me! I guess I need to cultivate a larger crop of humility, so you can fetch me a glass of crude kerosene oil with the cabbage and corn beef. I've been the slave of a C. P. engineer for three trips, and I need something pleasant to the taste. Boys, don't none of you all enlist on the C. P. as firemen unless you stipulate that H. is not to drill you."

"What's the matter of H.? He and I came to the country together, and washed in the same bucket," ventured the ex-Assemblyman. "Well, pard, if that's true, he has changed like a— He wouldn't let me wash in the 'same' bucket with him; wanted me to make the round-trip without washin' at all— said it was the rule of the road and all that sort of rot. I bucked some and threatened to report him to the sanitary commission. What the devil you all laughing about? ain't that the name of the commission Mrs. Cleveland appointed to correct R. R. abuses? This cowed H. a little, and he treated me mighty near as good as a plantation nigger until my last trip, when he cured me of my longing to become a knight of the throttle-valve. He stopped his engine out on the loneliest desert and told me to go into the firebox and get something. Thought my father was an iceberg and my mother a Salamander, I reckon. I rebelled and he sent me under the engine on some pretext or other, and got off on the other side, came around and deliberately stepped on my neck, mounted again, figured if I was going any farther with him, or if I intended to walk back to Carlin? I struggled with my emotions a brief period, then crawled onto the engine a crushed and disgusted youth. From this last incident I concluded that I was not designed for a fireman in this climate and promised myself that if I finished the trip with my scalp, I would break the news gently to the C. P. management that my father's health required my presence in Reno and that they might appoint anyone of my numerous enemies to the vacancy. This resolution I kept to the letter. If I had the man here who invented engines I would drown him in a teaspoon."

I left him eating vast quantities of cabbage. SWAMPER No. 1.

Pleasant Valley Coal.
That Pleasant Valley coal is coming into general use in Reno is evident from the large shipments of it being made here. By actual test of the Central Pacific and the Utah Central Pacific Companies it is three times cheaper than common pine wood. Several of the large business houses of Reno use it in preference to any kind of wood that can be obtained here. This coal can be laid down in Reno in car-load lots for \$12 a ton by H. C. Davis, whose office is on Second street, opposite the Fowling Addition. Those having rooming or parlor stoves for wood fuel can get coal prices at any hardware store, the prices ranging from \$1.25 to \$3. See advertisement under head of "New To-day."

Traded Horses.

James Nichol, of Mason Valley, who took his Norman stallion "Napoleon" to the State Fair, has traded the animal for an imported Norman stallion that was owned by parties in Sierra Valley. The Lyon County Times says Mr. Nichol is bound to have the best draft stock he can get, and as he gave \$1,400 for the trade, it is inferred that he must now have a very valuable horse, for the stallion "Napoleon" was considered worth about \$2,000.

—St. Bernard Commandery, Knights Templar, of Chicago, has expelled Boodlers McGargle, Ocho and Ripper from the roll of its Knights.

The thanks of the GAZETTE are due to Professor Orvis Ring for the collection of the materials of the School History given in to-day's issue, and to Mrs. M. S. Doten for preparing and managing the same. No doubt some errors may be detected in it, owing to the difficulty experienced in obtaining the earliest data, but in the main it is believed to be correct.

Among those who left on this morning's train for the Fair at Carson were: Miss Emma Haslund, Miss Leona Hansen, J. J. Becker and wife, H. P. Krous and H. E. Davis.

To the Citizens of Carson.

There is not that real live interest taken in the District Fair that ought to be manifested here, says the Carson Appeal. The gentlemen who have been out selling season tickets report that the little town of Empire, where the mills have been several months closed down, is purchasing tickets more liberally than Carson. It is very discouraging to the committee to hear business men say "what's the use of it?" and grudgingly take tickets, as if the purchase was a favor to the committee. These men should bear in mind that the Agricultural Association is all working like beavers, for what? Themselves? Not for the future business prosperity of Carson City. The success of this Fair and exposition of the natural products of the soil is the way booms are started, which help to build up a country and make it prosperous.
Every business man that puts up his money on this proposition is paying the way to a fat bank account in the future. A few live, active persons are working night and day for the Fair, and a lot of old Silurians are holding back.

The Con. Virginia Mill.

The site of the old Con. Virginia mill is to be used henceforth as a dump for waste rock, the mill having been torn down and removed elsewhere. Perhaps there is not another mill in the world that has turned into the coffers of commerce so many dollars as this one has. From beneath its stamps Mackay picked up, it is said, \$50,000,000; and Fair, Flood and O'Brien each nearly as much; hundreds of others were made enormously rich, and thousands of miners and employees have received excellent wages for a number of years. Now the mill is pulled down, and the site used for a waste dump. "To what base uses do we come at last!"

A Cent Mine.

John Q. Moore and Henry W. Tangerman, says the Carson Union, have arrived from the mine of the Humboldt Company near Carlin, bringing with them the most cheering accounts from that vicinity. Heretofore the deposits have been supposed to be rich, gas producing, carboniferous shale. Work was newly commenced about three weeks ago, and a crosscut made from the old workings easterly into the true formation. To the surprise of all hands an immense body of true or anthracite coal was penetrated.

A Menstrual Race.

There will be a novel race at the Fair grounds next Friday, says the Appeal, between Mr. Buster, the champion change rider of the world, and Buck Murphy, of Genoa. The novelty of the race consists in the changing of horses at the end of every mile for twenty-five miles. Mr. Murphy thinks that he will win the race from the fact that Mr. Buster has been used to trained horses, while in this race he will be compelled to use horses that are untrained.

"Ranch 10"

The Osbourne-Stockwell Company appeared at the theater last night in "Ranch 10." The company arrived on last night's west-bound train, and as a consequence the actors were much fatigued. It was after 9 o'clock when the curtain rose, and the audience had become impatient, and many complaints were heard. However, the play passed off smoothly. It is a border drama somewhat similar to Buffalo Bill's productions, minus the wild Indians and gunpowder. They play in Virginia to-night.

What a Car Holds.

A ten ton freight car will hold a load as follows: Of whiskey, 60 barrels; salt, 70 barrels; lime, 70 barrels; flour, 90 barrels; eggs, 130 to 160 barrels; flour, 200 sacks; wood, 35 cords; cattle, 18 to 20 head; hogs, 50 to 60 head; sheep, 80 to 100 head; lumber, 6,000 feet; barley, 300 bushels; wheat, 300 bushels; flax seed, 300 bushels; apples, 370 bushels; corn, 400 bushels; potatoes, 430 bushels; oats, 680 bushels; bran, 1,000 bushels; butter, 20,000 pounds.

Two Months' Production.

The following, says the Sentinel, is the production of the Eureka Co. Mining Company during the past two months: August—gold and silver in dore bars, \$59,182 78; September, gold and silver in dore bars, \$59,685 28. Total for the two months, \$118,868 07. During the same period the market lead produced was about 250 tons.

The attendance is larger than was anticipated. The ladies at the Pavilion are very enthusiastic. Many prominent people are present, including the Stat officials.

The New York Herald is now printed and published simultaneously on two continents. It will appear every morning in Paris and will be sold there for two cents, its New York price.
Sir John Swinburns, O. V. Morgan and Halley Stewart, members of Parliament, sailed for New York yesterday. They come to America as members of the Inter-State Arbitration delegation.

The following State ticket was nominated by the New York Greenback party yesterday: For Secretary of State, Rev. Thomas K. Beecher; Comptroller, Sylvester Tripp; State Treasurer, J. Madison Hall; State Engineer and Surveyor, Edwin H. Sullivan.

Cardinal Gibbons preached at St. Paul, Minn., Sunday, upon the subject of charity. Hundreds were unable to gain admission to the Cathedral.

It has been decided to hold the second Courtney-Bubear single scull race on the Susquehanna river at Owego, on Saturday, October 8. Bubear sails for England on the 11th inst.

Helarich Schermon, age fifty-six, who has been an inmate of the Ward's Island Insane Asylum, New York, since 1876, committed suicide there on Sunday by hanging himself with his suspenders from a bar at his window.

The Pacific Coast Detective Agency, at Los Angeles, has received two immense bloodhound trailers from Georgia, to be used in running down criminals in mountain fastnesses and other obscure retreats.

The President has appointed Whitaker M. Grant, of Iowa, to be United States Attorney for Alaska, and Charles M. Force, of Kentucky, Receiver of Public Moneys at Lewiston, Idaho.

At the convention of New York Democrats in New York to-day the seats from New York City were divided between the city and county factions, leaving the Irving Hall branch out in the cold.

What's the Matter?

What's the matter with the Reno GAZETTE? Its visits to this office of late have been few and far between. If it imagines that a copy or two a week ought to satisfy exchanges published in that part of the State, which Traffic Manager Stubbs thinks has no future, the Silver State desires to disabuse its mind of that notion.—Silver State.

We have interviewed our mailing monkey as to the cause of the above, and he declares the paper is sent every day. Is not the trouble with your own Postoffice?

A Train Derailed.

It is reported that an east-bound special freight train jumped the track near the "Sheep Ranch," between Reno and Wadsworth to-day, and that the engineer, fireman and a brakeman were badly hurt. The railroad officials are very reticent about the matter, and particulars cannot be learned.

Fine Jewelry.

Miller, the jeweler of Sacramento, will send by mail or express any article of jewelry that may be ordered, and will guarantee satisfaction as well as if the purchaser was present in person. His house has a reputation second to none in the State.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of Dr. F. Fryer is on each, as none are genuine without it.

The Perfection.

Of the age in the medical line is the liquid fruit remedy, Syrup of Figs, manufactured only by the California Fig Syrup Co., San Francisco, Cal. It is agreeable to the taste, acceptable to the stomach, harmless in its nature, painless yet prompt and thorough in its action. For sale by Wm. Pinniger, Reno, Nevada.

Baptist Church Services.

Services at the Baptist Church, every day, 8 a. m. Bible reading, 7:30 p. m. Rev. D. L. Chubbuck and wife, singing Evangelist conducting the meetings. An invitation to all.

A Useful Precaution.

It is a useful precaution for the tourist, the commercial traveler, or the emigrant to the West, to take along Hostetter's Bitters. Invalids who travel by steamboat or rail should provide themselves with it to ward off or remedy the nausea which the jarring and vibration of vehicles in transit often causes them. Easily preferable is it for this simple, but necessary purpose, to the heady and unwholesome stimulants of commerce. On board ship, it not only remedies sea sickness, but neutralizes the pernicious effects of water, for seasickness, which is usually, is apt to give rise to liver troubles of the bowels, cramps in the abdominal region, dyspepsia. To these, it adds headache, heart-burn and wind upon the stomach are promptly banished by it. It healthfully stimulates the kidneys and bladder, and nullifies the early symptoms of rheumatism.

Invaluable for

Ladies and

Children.

You'll find it good to regulate the organs of both small and great; it checks Sick Headache, and the woe of indigestion, and is a sure remedy in TARTAR'S SALT-ZEE people and a remedy and treat complaint.

THE GREATEST STUDY OF

Mankind is Man.

And who else's wondrous frame doth scan, ponder and devise to cure an ill, whether by device, fruit or pill, an equal benefactor is he; and we have had the inventor of a Catholic of delicious taste, to do him honor. Who remembers not how the distressed mother, her child's entrance into the world, would rather pay high price, if money could purchase Cathartics. We have it now! And great Dr. Pierce's name appears upon the scroll of Benefactors, for after long study what would suit, has hit upon delicious fruit to cure our ills. Away with drugs and pills; for whether it be indigestion, liver complaint or constipation, or any disease to which flesh is heir, he here with wide dose boldly declares, and on the assertion will wager big, that it can be cured by this.

It will strengthen and make straight weak knees and ankles. It is invaluable as an internal remedy for coughs, colds, congestion of liver, and generally believed to be just the right remedy to use during the BRANLING SEASON, as it will at once take out the fire and seal the wound over. We believe it will prevent the marks and brands from becoming fly-blown. This lotion does not contain any poisonous ingredients, consequently does not taint the wool. Price, ONE DOLLAR per full quart bottle, which will last a full year of use. Please give it a trial.

RENO'S PUBLIC SCHOOLS.

A History of Them From Their Opening in 1868 Until the Present.

COMPLETE LISTS OF SCHOOL TRUSTEES, TEACHERS AND EXPENSES EACH YEAR.

How the Attendance Has Increased With the Progress of the Town—Unquestionably the Best Public Schools in Nevada.

PUBLIC SCHOOL BUILDING, RENO, NEVADA.

EDUCATIONAL

RENO PUBLIC SCHOOLS.

A full and complete history of the same from their opening in 1868, till the present time.

Nothing marks the growth and progress of a State, county, or town more certainly than the growth and progress of its schools. The history of most frontier towns is marked by the same features, first the saloons, the necessary stores for supplies, the gambling resorts; then, as a more permanent class of people presents itself, come the churches and the schools. Reno in no wise differs from other towns of the West in these particulars, and now, when so much attention is attracted to the town, by reason of its great natural advantages, its position as a railroad center, and the increase of its educational facilities, a concise history of the organization, and the progress of the schools up to the present time will be appropriate and interesting, both to the patrons of the schools and to the friends of education generally. The town of Reno was laid out in 1868, and grew rapidly, following the completion of the Central Pacific R. R. The first public school was opened in September of the same year, in the building recently occupied by the San Francisco Soap Co., the teacher being Miss Lucy A. Scott, now Mrs. C. L. Richardson. At Reno, her salary being \$100 per month. Her school soon increased to 80 pupils and she was assisted in her duties by a Mrs. Kirwin, since deceased. In January, 1869, Rev. R. A. Ricker was employed as principal. The school accommodations were found to be inadequate, and a building for the purpose was erected on Front street, at a cost of \$3,000, in December, 1869. This building now forms the rear of the one known as the old schoolhouse, standing in its original position, and on the lot adjoining the one occupied by the M. E. Church. Mr. Ricker continued in charge of the schools, but for long a time, and whether he had any assistant or not, cannot be ascertained. He was succeeded by a Mr. Carson, he, in turn, by Rev. W. C. Gray, each of whom was employed only for a short time. From September, '70, to June, '71, R. P. M. Greeley was employed as principal, with Miss Annie L. Poor, now Mrs. Ayers, of Oakland, as assistant. In September, 1871, Orris Ring, who had taught the schools of Ophir in its palmy days, and afterwards those of Washoe City, was invited to take charge of the Reno schools, at a salary of \$100 per month, which was soon after increased to \$125 per month. Miss Annie Poor was selected as his assistant, at a salary of \$75, which was raised to \$100 per month. In June, 1872, while returning from a picnic which he had given his scholars at Glendale, Mr. Ring was thrown from a wagon, and had a broken arm as the result; being thus disabled, the remaining three weeks of the term were taught by R. E. Hoy. The trustees at this time were Jos. De Bell, P. D. Comstock and D. H. Haskell. From March 28th, '71, to September 1st, '72, there was expended for school purposes \$2,935.50, of which sum was paid for teachers' salaries \$2,033.75.

From September, '72, to June, '73, Orris Ring was principal, at a salary of \$115 per month. He was assisted by Miss L. A. Bradford at a salary of \$90 per month. The amount expended for this year's schools was \$2,240, the amount paid for teachers' salaries being \$2,202.

In September, '73, the same teachers were re-elected, with the same salaries as the preceding year. It was soon found, however, that an increase of teachers and accommodations would be necessary. By the census of 1870, 164 pupils were enrolled; in '71 the number was somewhat smaller, only 140 children of school age being found. By the census of 1873, 181 were enrolled, and arrangements were made to provide for the increased number. A room on Virginia street was rented and fitted-up as a primary school room, with Miss Bradford as teacher, Miss Frankie J. Gibbs being employed to assist Mr. Ring. By the great fire in Reno, which occurred in October, 1873, the building on Virginia street was burned, with most of the children's books, after which the M. E. Church was rented, until measures for enlarging the schoolhouse could be carried out. A special tax was levied for this end, the old building was moved back, and the present front erected, at a cost of \$5,450. In this year the amount expended for school purposes, exclusive of that paid for teachers' salaries, was \$2,130.25. For the year from September, '74, to June, '75, S. M. Jamison, Wm. Duck and J. R. Knox were trustees. Number of scholars enrolled by census, 248. Orris Ring was principal at \$115 per month. Miss Emma Beemer was 1st assistant, and Miss Sue H. Adams 2d assistant, at a salary of \$85 per month each. At the end of 3½ months Miss Adams resigned, and her place was filled by Miss Clara Poor, now Mrs. C. C. Downing. The expenses of this year were \$3,910, the teachers' salaries amounting to \$2,572.50.

For the school year of '75 to '76 the trustees were J. L. McFarlin, C. A. Bragg and Frank Bell; the number of school children enrolled in May, '75, was 331. The teachers elected for this year were Orris Ring as principal, Mrs. E. Bourne as 1st assistant, and Miss Rose L. Ellis as 2d assistant. The principal's salary was increased to \$1,500 per year, and the assistants received \$80 per month each. The school building proving too small to receive the increased number of children, an addition of two rooms was made, and Miss Ellen M. Emery was elected to take charge of the new department. After teaching five months, Miss Ellis resigned to become the wife of Z. Eldredge, then of Virginia City. She died at her home in Oakland a few years since, leaving sorrow in the hearts of all who knew her well. Miss Julia S. Fawcett was elected to fill the vacancy caused by the resignation of Miss Ellis, but the charms of matrimony seem to have heavily outweighed those of the schoolroom this particular year, and after six weeks, she, too, resigned to become the wife of that popular gentleman and well-known banker of Reno, C. T. Bender. C. S. Panabaker was chosen to fill her place. This year's school expenses amounted to \$6,579, of which sum was paid for teachers' salaries, \$4,380.

For the year '76 to '77, Orris Ring was principal, at \$1,500 per year, his assistants being Chas. Gulling, Mrs. R. Bourne, Miss E. C. McNeely and

Miss E. M. Emery, with a salary of \$85 per month, each. The number of school children enrolled by census May, '76, was 408. This year's expenses amounted to \$6,070.40, of which \$5,180 was for teachers' salaries.

The teachers elected in September, '77, were Orris Ring, principal, with assistants as follows: Chas. Gulling, Miss E. M. Emery, Miss Frankie Gibbs, Miss Effie McNeely, now Mrs. Frank Rockwell, and Mrs. H. Bourne, who acted as general assistant. The salaries were the same as the year previous, with the exception of Mrs. Bourne, who received \$70 per month. The number of children enrolled in May, '77, was 464, and the schools had become so crowded that the wide hall between the rooms had to be utilized as a recitation room, and it was here that the assistant, Mrs. Bourne, heard recitations, taking classes from the different rooms as required. The expenses of this year were as follows: Teachers' salaries, \$5,600; contingent expenses, \$715.70; repairs, \$24.80; total cost, \$6,340.50.

The opening of the schools in September, '78, found Prof. Ring again installed as principal, with no change of salary. He was assisted by Mrs. Bourne at \$700 per year. Chas. Gulling had charge of the 2d Grammar Department, Miss E. M. Emery of the 3rd. Miss Minnie Gibbs had charge of the Intermediate grades, but was succeeded by Miss E. J. Gibbs at the end of four months. Miss Effie McNeely had charge of the Primary grades, but was relieved by Miss Ella McNeely after three months. Each of these assistants received \$850 per year. Number of children enrolled, 481. The cost of the schools for this year was as follows: For teachers' salaries, \$5,600; contingent expenses, \$448.50; repairs, \$119.97; total cost, \$6,168.47.

For the school year of '79 to '80, the teachers of the previous year were employed, but it being found necessary to reduce expenses, the salaries were arranged as follows: Principal, \$130 per month; 1st assistant, Mrs. Bourne, \$70 per month; 2d assistant, Chas. Gulling, \$85 per month; while the other assistants received \$75 per month each. At the end of the first term Mr. Gulling closed his connection with the schools by resigning, and was succeeded by Miss L. A. Royce. The trustees at this time were J. L. McFarlin, C. A. Bragg and J. H. Kinkead. The number of children enrolled in May, '79, was 508. Owing to the steady increase in the number of scholars, it was found necessary to provide still further accommodations. With this end in view the trustees had already purchased, at a cost of \$2,750, the fine lots whereon the brick school house stands, and now proceeded to the erection of the building, which has ever since been an ornament to the town, being second to no school edifice in the State. Plans of school buildings were advertised for, and those of Mr. — Clark, of Sacramento, being considered the most suitable, were accordingly adopted. Bids for construction were also advertised for, and that of I. T. Benham being the lowest, the contract was awarded to him at \$13,750, and the work of building was at once begun. The expenses of this year were as follows: Teachers' salaries, \$5,180; contingent expenses, \$29.00; building and repairs,

The Leading Private Educational Institution FOR BOYS On the Pacific Coast. ST. MATTHEW'S HALL SAN MATEO, CAL.

Thirteen Teachers — OF — College Reputation — AND — Ability.

LOCATION. This institution, founded in 1886, is situated near the village of San Mateo, which is noted for its beauty and seclusion; also for the equability and healthfulness of its climate. It is within twenty miles of San Francisco by rail, and easily accessible by carriage, and therefore particularly suited to parents in the city, who wish their sons within reach in case of emergency. Trains of the Southern Pacific Company frequently, allowing visitors to go and return several times daily.

DISCIPLINE. The Principal exercises a fatherly care and discipline over the pupils, seeking to influence and kindly lead rather than drive. The military discipline is used in a modified form, sufficient to secure regular exercise and erect carriage by drill, and habits of promptness and obedience, with orderly movements in the school-room. Experience has proved that the military drill, thus modified, is beneficial and not objectionable. Particular attention is given to the morals and manners of the pupils by both principal and teachers, it being considered an indispensable part of their training to make them gentlemen as well as scholars. This is the atmosphere of the school.

SESSIONS. The school year is divided into two sessions of twenty weeks each. The Easter session begins about January 1st; the Trinity session about July 20th, with a summer vacation of eight weeks, and a winter vacation of four weeks. Pupils will be received at any time.

DR. C. W. HIGGINS, the well-known specialist, has opened an elegant medical dispensary in his elegant parlors at No. 30 West Third South street, Denhalter Block, Salt Lake City.

DR. C. W. HIGGINS.

Microscopic and Analytical Physician.

Has practiced in Salt Lake City fourteen years, and the wonderful and well-established cure he has effected in that time prove the scientific principles on which his reasoning are founded. The mode of forming a diagnosis by the aid of the microscope enables him to detect the primary cause of disease and effect a radical cure. The doctor has cured thousands of cases of Nervous Debility, Mental and Physical Weakness, Loss of Manhood and Nervous Prostration, the result of early indiscretions and excesses, and will forfeit five hundred dollars for any case taken under his treatment which he fails to cure. Syphilis, Gonorrhea, Gleet, Stricture, and all old lingering diseases which vitiate the blood and impair the system thoroughly and permanently cured. My treatment is sure, certain and specific. 1880 and '81. The new building

was opened for the reception of pupils

in September, 1880, with the following

corps of teachers: Orvis Ring as principal

and teacher of High School, at

\$1,800 per year. Miss Lottie Warner

1st Grammar, and Miss L. A. Royce,

2nd Grammar, at \$850 apiece. Mrs.

R. Bourne, 3d Grammar, at \$800.

First and 2d Intermediate, Miss E.

M. Emery and Miss F. J. Gibbs, at

\$750 per year each. The primary

grades, now to be taught in the old

Bourne resigned. Miss Emery was

promoted to the position thus made

chosen to fill her place. Miss Emery's

health failing soon after, she gave up

her position, and it was filled for two

months by Miss Mary A. Taylor.

Miss Emery went to San Francisco
